

CITY LAWMAKERS.

Important Legislation Started by Ordinance Committee.

THE ANNUAL LICENSE ORDINANCE

Considered, and After a Number of Amendments Recommended to Council—Circus License Reduced to \$100—Wide Tires on Road Vehicles—An Endeavor to Tax the Ohio Side Breweries—The Long Distance Telephone Ordinance. Pool Room Tax Advanced to \$1,000.

The committee on ordinances of the city council met last evening, Chairman P. B. Robbins presiding and the following members present: Robinson, Gruse, Weidobusch, Kenney, Richards and Robertson. Several important matters were considered.

The first matter taken up was the annual license ordinance, on which there was considerable discussion. The rate agreed upon for meat peddlers was \$50 per annum. Colonel White, city solicitor, explained a provision in the ordinance by which the over-the-river brewers and wholesale liquor dealers who have heretofore sold their beer, etc., in this city without paying any tax might be reached. He had examined authorities and said the committee cannot make an ordinance discriminating in favor of Wheeling brewers. Such an ordinance would violate the commerce clause of the constitution of the United States. A way around this was a peddling license which could be levied on the Ohio side brewers, but it was said if the over-the-river people do business here just the same as the city brewers, they would not be taxable, or if taxable the Wheeling firms would have to pay also. It was not the sentiment that the local brewers should be taxed additionally. Finally the liquor and beer peddling section was stricken out, there apparently being no way to get at the Ohio people without taxing the local brewers.

The next section provided for a tax of \$50 per year, for all hawkers of vegetables who are not licensees of stalls in the market. It was passed. The balance of the ordinance was read by Clerk Hanke, and there were no changes from last year's ordinance, until the item of "pool rooms" was reached. Chairman Robbins was in favor of bringing the tariff up a notch or two; so was Mr. Robertson. The latter was in favor of advancing it from \$250 to \$1,000 per annum. Mr. Richards was in favor of a separate license on "base ball" and "horse" pool rooms. It was said perhaps the \$1,000 rate would be prohibitive, and the result would be that pools would be sold on the side, just like policy. In other cities the rate is \$2,000, \$3,000 and even \$10,000. A motion to put the license on ball and horse pool rooms at \$1,000 was a tie, and Chairman Robbins cast the deciding vote for the motion.

Mr. Hook, of the West Virginia State Fair Association, was present and addressed the committee. He wanted the ordinance so amended that his association would benefit. He wanted a nominal sum fixed upon the book-making license during State Fair week; desired a rate less than \$150 for each "book" during the fair. A suggestion was made that the annual rate be charged, pro rata, \$3 per day, to bookmakers having stands during fair week on the ground. After considerable discussion the rate for the State Fair "books" and "pools" was made \$5 per day, each.

Mr. Gruse made the suggestion that the license rate for wheeled vehicles with wide tires be made one-half the regular rates, or vehicles with narrow tires be taxed twice the rates named. It was suggested that vehicles having tires four inches wide or wider be taxed only one-half as much as those with the narrower tires. Finally the rates were fixed as before.

In this connection it was suggested that vehicles for hauling merchandise be required, after a certain date, to have the wide tires. The solicitor was instructed to prepare an ordinance fixing certain standard and required widths for tires on vehicles.

In connection with the liquor license rates Colonel White said there has never been a tax on retail liquor stores, where liquor is sold, not to be drunk on the premises. The "barrel" houses have heretofore paid the coffee house license, but there was no action that applied to them. The rate fixed by the new ordinance is \$300, same as coffee house license.

When the section relating to circuses was read Mr. Richards remarked that the rate is prohibitive, and this being the case he would favor a reduction, and moved that \$100 per day be charged. The present rate is \$150. Mr. Gruse said that by the present rate circuses not of the first class only are excluded, and the first class shows do not object to the present rate.

A letter from J. A. Bailey, of the Paragon & Bailey shows, was read, giving the rates for circus licenses, Wheeling being one of the highest charging cities. St. Louis only charges \$50 per day. Minneapolis is the only city, says Mr. Bailey, that charges as much as Wheeling. M. H. McNabb addressed the committee and said various shows pass through Wheeling without exhibiting on account of the very high license. Mr. Cecil Robinson said that he never could see that Wheeling benefited by a circus. Mr. Richards said it is a well known fact that the circusmen think circuses benefit the community. On a vote the \$100 rate was adopted by the committee. The vote was as follows:

Ayes—Weidobusch, Richards, Kenney, Robertson.

News—Gruse, Robinson. Mr. Gruse moved that when a circus charges extra for reserved seats the rate be \$150. The motion was defeated.

When the ordinance had been read through its adoption as a whole was moved and the motion was carried. Council will next wrestle with it.

The "salt car" ordinance, prepared by Colonel White, was read. It provides that hereafter salt shall not be put on the tracks of the street railway to melt the snow. Superintendent Loftus, of the Wheeling Railway Company, said he did not know how the company could operate its road in snowy weather if the ordinance passed. It was stated that the salt was injurious to horses, and other animals' feet, and for this reason the ordinance was constructed. Mr. Gruse, also, did not see how the road could be operated if salt is not allowed to be used. Mr. Loftus' snow of no other substance that can be used in place of salt. Mr. Cecil Robinson had had experience in this line, and he did not know salt was injurious. It was said that when horses were used on the street railway salt was distributed and there was no evil effect to the horses. On motion of Mr. Robinson the ordinance will be reported to council unfavorably.

The American Telephone and Telegraph Company ordinance was next

read by the clerk. It gives the company the right to put up poles and string wires on such streets as it desires to erect its line through the city. Mr. Cole, of the company, was present at the committee meeting. He said his company is building a line, a long distance one, from New York to St. Louis, through Washington, McKeesport, Pittsburgh, Wheeling, Columbus, Indianapolis, Springfield and St. Louis. The line is now completed to Pittsburgh. His company does not propose to build a local telephone line; it is to be a long distance one. The objection to naming a route in the ordinance was the fact that permission has not yet been received from the county commissioners to come into the city over the National road. Then, too, his people might make arrangements with the Central District Company to use their poles and wires. He named a route, with the proviso that another shall be used if the company decides to build on another route. The route named provides that the line shall enter the city on the National road and to its junction with Market street, along Market to the junction with the alley between Tenth and Eleventh streets, and along the alley and across the steel bridge. In the amended ordinance he presented, the city has the power to require the company to put its wires under ground, the city having the privilege of the use of one duct for the fire alarm system.

There was some discussion regarding the ordinance and the sentiment seemed to be that the matter is much too important to be decided without due consideration. Action was postponed until the committee is called together by Chairman Robbins. In the meantime Mr. Cole will appear before the county commissioners and secure an entrance through the county into the city over the national road if possible.

A communication from the board of public works was received. The communication recommends that the construction of awning posts on the business streets be prohibited and that signs shall not project over twenty four inches from the building. Awnings shall be nine feet above the sidewalk. The communication asks that no advertisements be allowed on the awnings. The sentiment in the committee was decidedly against this provision. The provisions were also extended all over the city, instead of just in the business portion. Signs and advertisements will also be allowed on the awnings. The ordinance will be drawn up by Colonel White and reported to the committee at the next meeting.

The board of public works also asked that the grade of sidewalks from the street to the building on the streets of the city be one-quarter of an inch per foot, instead of one-half inch as now required. This regulation is the cause of the slippery pavements; this to apply to new pavements only; also that the foundation be of cinders or gravel. The solicitor will prepare an ordinance in accordance with the recommendations of the board.

At the request of the board of public works an ordinance will be prepared providing for the stopping of cars before crossing the Market street bridge over the creek, and that cars and other vehicles cross at a slow rate of speed. The resolution of Mr. Hupp introduced in council regarding the changing of the words "municipal court" to "police court" in the city ordinances came up for action. Colonel White said all the powers of the municipal court are invested in the police court, and there seemed to be no real necessity for the change contemplated by the resolution. The committee on ordinances will report to council that there is no necessity to make the changes.

WORKMEN ARRESTED.

Charged With Stealing From Their Employer—Wm. H. H. Lost.

New York, Feb. 21.—Seven employees of Nathan Hurlock glass manufacturer at Pittsburgh, with several warehouses in this city, were arrested today. The men are charged with conspiracy, Morris Weinberg was also charged with receiving stolen goods.

Mr. Hurlock thinks he has lost between \$20,000 and \$40,000 in the last year by dishonest workmen.

More Anarchists Arrested.

PARIS, Feb. 21.—The police yesterday evening arrested twelve anarchists at the lodgings of an anarchist leader named Duprat. Among those taken into custody upon this occasion was the Anarchist, Bastard, who is supposed to be the author of yesterday's outrages.

Madame Calabresi, who was dangerously wounded yesterday morning by the explosion of the bomb in the Rue St. Desjardins, and the other people wounded by the same explosion are progressing favorably.

W. C. CHURCHMAN, 221 S. Charles st., Baltimore, Md., found Salvation Oil a sure cure for sprains and inflammations.

Hundreds of people are inquiring how to get the excellent World's Fair Arc Portfolios, issued by the INTELLIGENCER. See next Monday's issue for this opportunity.

My little man, do you want a pen-knife? We know you do, and we are going to tell you how to get it. When your mamma sends you to the grocery for a loaf of bread always ask for the loaf with the Tin Seal on it. You take the little seal off and put it in your pocket, when you have 100 of them call at the office of the Wheeling Bakery and they will give you just what you want.

Ugly Tempers

Are a product of bad digestion. Your dyspepsia is almost invariably a cross-patch. The way to cheerfulness of disposition and an equable temper is to be rid of indigestion, and to take a course of Hostetter's Stomach Bitter, which not only banishes dyspepsia, but also relieves biliousness, constipation, chills and fever, rheumatism and kidney trouble. Use it with persistence three times a day.

An Editor's Recommendation.

Mr. C. F. Davis, editor of the Bloomfield, Iowa, Farmer, says: "I can recommend Chamberlain's Cough Remedy to all sufferers with colds and croup. I have used it in my family for the past two years and have found it the best I ever used for the purposes for which it is intended."

IRON AND STEEL MARKET.

Condition of Trade Locally—The Current Quotations.

It has recently been stated that the Wheeling iron and steel markets are looking very much better than at any time in the past three months. The demand for quotations and the placing of orders have gone far ahead of anything known since last September. Inquiry of the local manufacturers, however, does not develop much reason for this rosy view. There has been, perhaps, more activity within a week or two than at any other time since fall, but apparently things have fallen back into the old rut, and all are playing a waiting game. Few of the industries are running except on occasional orders. There is a shade more of activity in finished product, perhaps, at the same prices, than was perceptible the first of the month, but otherwise no change can be reported since the new year.

Steel Billets and Blooms—There is no life in the market, though prices are firm, having gone about as low as they could get. No transactions are reported this week. Manufacturers quote \$17, but a dollar lower would buy all the steel in sight.

Pig Iron—The pig iron market is pretty flat. Quotations are given at \$13 for Bessemer, but as a manufacturer remarked yesterday this is only a basis to tickler on. There are reports of sales at pretty low prices, and there is really no reliable quotation just now. More iron is being consumed just now than before for some time.

Muck bar—Is quoted at \$20, with an outlook for better prices.

Finished iron—Bars are firm without much increased demand, though there is promise of a brighter spring trade. Sheets and plates are more active than other products, though not up to the normal movement at this season. No change is noted in prices. Galvanized plates are in healthy request.

Nails—The nail market is practically stagnant, as it has been for some time. None of the large concerns are running steadily, and shipments are not regular nor large. The nominal base quotation is \$1, but does not govern rigidly.

MOUNDSVILLE.

A Miscellaneous Melange of Minor Matters from Marshall's Metropolis.

The Jr. O. U. A. M. parade will start at 1 o'clock to-day. The headquarters is at the court house. A reception committee will be on hand at all trains to receive the visitors and escort them to the headquarters. All places of business are requested to decorate. An entertainment will be given at the court house immediately after the parade, also in the evening. By resolution of the committee of arrangements, representatives of the press will be admitted to the table with the secretaries of the meetings to-day.

S. T. Cartwright yesterday purchased the C. C. Quinn stock of hardware from C. C. Mathews, trustee and assigned, for \$2,500, to take effect at once. Mr. Cartwright came here from Greensboro, Pa., two years ago, and has lately not been engaged in business, but has proved to be a good citizen, and will likely succeed in the hardware and tinning business.

The Epworth league will hold an important business meeting this evening. Reception of new members will be an interesting part of the meeting, also the reading of letters from distant friends regarding their league work.

The board of education, by petition from the Jr. O. U. A. M. of this city have ordered the public schools closed to-day. The teachers extend a vote of thanks to these organizations.

The will of Ezra O. Kull, wife of Charles Kull, has been admitted to probate at the county clerk's office. It divides all her personal estate to her husband.

Clarence B. Smith has accepted a position with S. T. Cartwright as foreman in his tinning department. Clarence is a skilled workman at his trade.

The banks and postoffice will observe holiday hours to-day.

MARTIN'S FERRY.

Haps and Mishaps in the Thriving City Across the River.

Squire Theo. Koller was unable to proceed with the hearing of the young man charged with robbery last night, and it was again continued. The time set is this evening at 7 o'clock.

R. A. Lindemuth, of Martin's Ferry, has been elected Grand Sir Herald of the Knights of the Golden Eagle of Ohio. This is the third highest officer in the State.

C. G. Mitchell talked in Grace English Lutheran Church at Youngstown on Sunday, while in attendance at the Y. M. C. A. convention. He will return to-day.

Messrs. E. J. Miller and George W. Chessel, civil and sanitary engineers, have formed a partnership for work in their line and will open an office at once.

Mr. and Mrs. Thomas Irwin, of Third street, have as their guests Mr. and Mrs. W. F. Hill, of Philadelphia.

The reception to be given by the Y. A. at the Y. M. C. A. to-night will be free. It will commence at 8:30.

The new pavement around the Cleveland & Pittsburgh passenger depot is a great improvement.

Union exercises will be held in the high school to-morrow afternoon. "Slowfast" Williams was arrested yesterday for drunkenness.

L. K. Kitchell, Esq., of Mt. Pleasant, was in town yesterday.

E. C. Boyd returned from the east yesterday.

The schools and banks will be closed to-day.

John L. Van Pelt is in Washington, D. C.

Even the colored voters have become excited, and at a quietly called meeting of the colored folks held at city hall Tuesday night, they endorsed D. C. Shepherd for mayor, and J. E. Blackburn for treasurer, and passed the following declaration of their position:

"We as men want, and must have a show as well as all other freemen. We know that we have been blessed in gone by days, but we will elect a set of men that can, and will bless us by giving us a place upon the blue coat list, and a seat around the council table, and upon the streets with a shovel or a pick. We have made out our ticket, and will vote it to the end."

Jack Mullen, Michael Riley and "Peaches" Moran were bawling about 2 o'clock yesterday morning, when they seized a barrel standing in front of George Heil's meat store, and in the belief they had struck it rich they rolled the barrel into an alley and knocked the head in. It was a barrel of molasses. The boys were discovered as well as disgusted and were locked up to await the action of the mayor.

BROWN'S IRON BITTERS cures Dyspepsia, Indigestion & Debility.

What Will Do It?

Medical writers claim that the successful remedy for nasal catarrh must be non-irritating, easy of application and one that will reach the remote areas and ulcerated surfaces. The history of the efforts to treat catarrh is proof positive that only one remedy has completely met these conditions and that is Ely's Cream Balm. This safe and pleasant remedy has mastered catarrh as nothing else has ever done, and both physicians and patients freely concede this fact. Our druggists keep it.

Enough Pearlina

has been sold to put a girdle of it round about the earth, and a good deal over. Hundreds of millions of packages, in the last fifteen years, have made washing easy for millions of different women. This suggests a question—to the timid women who think that because Pearlina saves

so much work it must do some harm.

Could Pearlina have been sold and used in this way and for this time, if it were dangerous? And another, addressed to all women: Isn't it better to be sure with Pearlina, the original washing compound, which has been thus proved, rather than to risk it with some imitation about which you know nothing.

Send it Back Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearlina." IT'S FALSE—Pearlina is never peddled, and if your grocer sends you something in place of Pearlina, be honest—send it back.
